

Scope of the audit

1. The 2023 Local Government Overview (LGO) notes that councils have never faced such a challenging situation. Service demands have increased after the Covid-19 pandemic and funding is forecast to reduce in real terms. Workforce pressures including recruitment in a competitive labour market, employee retention and high sickness absence levels are putting councils under continued pressure.
2. This report sets out how the council is responding to current workforce challenges through building capacity, increasing productivity and innovation.
3. [The Accounts Commission's Strategy \(2021-26\)](#) sets out its priorities to focus on inequalities, funding, communities and recovery. The Code of Audit practice sets out the Best Value work required to report on these priorities.

Code of Audit Practice 2020 Best Value reporting requirements

Best Value reporting – extract from the Code

The Accounts Commission's approach to Best Value involves reporting on individual local government bodies and thematically across the local government sector through performance reports:

- As part of their integrated wider-scope annual audit work appointed auditors use a risk-based approach to assess and report whether the audited body has made proper arrangements for securing Best Value and is complying with its community planning duties, including reporting progress against previous Best Value findings and recommendations.
- The Accounts Commission reports nationally on thematic aspects of local government bodies' approaches to, and performance in, meeting their Best Value and community planning duties. Local government appointed auditors report locally on any such Best Value thematic work prescribed by the Accounts Commission.

4. This report covers the thematic aspect of the Best Value audit requirements. The Commission has directed auditors to report on workforce innovation and how councils are responding to workforce challenges. In carrying out the work auditors have considered the following questions:

- How effectively are the council's workforce plans integrated with its strategic plans and priorities?
- How effectively has digital technology been used to support workforce productivity and improve service quality and outcomes?
